

## Acquisition of a Shelf AG (PLC)

The shelf companies offered by EVOGE GmbH are newly founded companies entered in the commercial register without previous business activities. The companies have a fully paid-up share capital and are unencumbered by liabilities and commitments. You have the opportunity to start your business immediately, flexibly and un-bureaucratically, and thus focus on your resources and core competence. EVOGE GmbH is active nationwide and offers a nationwide selection of founding locations. Regarding the takeover of the share capital you have the choice between two models. Either you choose the transferable bank account with the necessary legitimation at the bank where the account is held or you choose the uncomplicated order cheque procedure.

The secure acquisition of a shelf company is carried out in five simple and transparent steps:
